Negative aspects related to the course:

None

Positive aspects related to the course:

The teacher always asked if we had questions and explained if that was the case.

Negative aspects related to the laboratory works and to the laboratory guide (documentation):

Felt a bit stressful at times.

Positive aspects related to the laboratory works and to the laboratory guide (documentation):

Even though it felt stressful at times, I guess it paid off in the end, and we actually learned something new.

Negative aspects related to the teacher of the course:

Sometimes gets angry easily when we don't carefully read the instructions and skip some steps, I guess that's normal though.

Positive aspects related to the teacher of the course:

Explained in tiny details whenever was necessary and made the information clear to everybody. I could feel that he was devoted and passionate about his work.

Negative aspects related to the laboratory teacher:

Same as above.

Positive aspects related to the laboratory teacher:

Same as above.

Proposals for improving the course activity:

-

Proposals for improving laboratory activity:
